

● Fixed Plug-in Type Attenuator

Features:

- In accordance with Bellcore (GR-910-Core) standard.
- Using fiber with cladding-mode suppression design, featuring excellent optical performance.
- Long ferrule structure with high repeatability, reliability, and temperature stability.
- Easy connection with plug-in structure.
- Accurate size and high return loss.

● Technical Specification

		Plug-in Type
Operating Wavelength		1310 nm & 1550 nm ± 60nm
Attenuation		1dB ~10 dB ( 1dB step), 15, 20, 25, 30 dB
Connector Type		FC, SC, LC PC or APC Polishing
Tolerance	1~9 dB	±0.5 dB
	10~20 dB	±1.0 dB
	21~30 dB	±1.5 dB
Return Loss		≥50 dB (PC ), ≥65 dB (APC)
Polarization Loss		< 0.2 dB
Environmental Temperature		- 40° C ~ + 75° C
Storage Temperature		- 55° C ~ + 85° C
Temperature Sensitivity		0.03 dB/° C
Max. Power Capability		1 W
